

Report on Committee on Arbitration 2018

The Arbitration Committee keeps on promoting members' interest in developing into arbitration practice. A seminar was organised with the Hong Kong International Arbitration Centre ("HKIAC") so that members can understand the operation of the HKIAC better. In the process, we also expressed our views on the new rules of the HKIAC which was revised in October this year.

Our representatives have also attended Legco meetings to express our views on legislative reform insofar as arbitration and mediation are concerned.

This committee also keeps a healthy dialogue with the arbitration community in Mainland China and the rest of the world.
